A separate decal for suite #107.

Install on the small upper glass section, not as part of the main entrance-door graphic.

WHITE LETTERING: 9.63 in wide x 3 in high

Glass height: 5.5 in. Center vertically with 1.25 in clear above and below.

Center horizontally on the upper pane; its actual width still needs verification.

The full-panel illustration assumes 30 in width to match the door. Frame gap is schematic.

Separate files: 10_SUITE_107_SEPARATE

Includes actual-size PDF, white SVG, black cutting SVG and transparent PNG.

The complete 5-page print master also includes this panel on page 5.

Printer handoff: all five pieces.

Complete production master first; separate white and gold layers are also supplied.

Page 1: entrance door

30 x 75.5 in glass canvas. White + Rustic Gold. Includes phone and website beneath tiles.

Pages 2-4: windows 1-3

38 x 85 in each. White slogans and aligned four-tile strips. Window 4 stays clear.

Page 5: SEPARATE #107

Upper pane height 5.5 in; 30 in width assumed only for placement. White lettering is 3 in high.

Complete master

Use BOTH door layers. The white layer deliberately omits the gold wordmark and cutter details.

Verify upper-pane width, shared bottom datum, frame positions, hardware and minimum feature sizes.
